

2026 MRHS Convention Gift Plant

***Hosta* 'Golden Celebration' (D. Dean, 2025)**

Details: 22 in diameter; 12 in high; upright; moderate growth rate; yellow with slightly rippled margins; dull on top; dull underneath; broadly ovate with round base; lightly cupped & twisted and moderately folded & corrugated overall.

Notable Characteristics: Smallish, slightly upright/flared clump of bright yellow leaves. Scapes & flowers are proportional to clump size. Puckered leaves that are usually seen in larger cultivars.

Pod Parent: *H.* 'Crimson Desire' × {[(*H.* 'Liberty Bell' × (*H.* 'Urajiro Hachijo' × *H.* *pycnophylla*)) × *H.* 'Ebony Spires'] × *H.* 'Astral Bliss'}

Pollen Parent: *H.* 'Faith'

Seasonal Color Change: leaves emerge greenish yellow turning vibrant yellow by mid-season.
